

ENERGY-RELATED EVENTS

2009

✚ Solar Lecture Series

Location: City of Scottsdale, Granite Reef Senior Center (1700 N. Granite Reef Rd. – NW Corner of McDowell and Granite Reef, behind convenience store).

Cost: Free

Host: City of Scottsdale

Website: http://www.scottsdaleaz.gov/greenbuilding/Solar_Lectures.asp

Homeowners, potential home buyers, architects, designers, builders, realtors and green enthusiasts are encouraged to attend these free lectures and discussions regarding living in the desert atmosphere in a resourcefully, responsible ways. Come to learn about resource efficient, healthy, and environmentally responsible building practices.

DECEMBER

✚ Ecobuild America Conference

Date: December 8 - 10, 2009

Location: Washington, D.C.

Website: www.aececobuild.com/attend

Ecobuild America educates design and construction professionals on how to improve our built environment. This unique conference and exhibit, not only introduces new strategies and materials to create high performance, sustainable structures, but also the technology to do it faster and more profitably. Attendees include the entire project team from architects and owners, to facility managers, specifiers who want to learn to better design, specify, and manage their projects to be **Sustainable and Smart**. Targeted training is available for commercial, industrial, government and residential AEC (architecture, engineering, and construction) professionals as well as educators.

2010

JANUARY

✚ Pacific West Biomass Conference & Expo

Date: January 11 – 13, 2010

Location: Hyatt Regency – Sacramento, CA

Website: www.pacificwest.biomassconference.com/ema/DisplayPage.aspx?pageld=The_Conference_Expo

With an exclusive focus on biomass utilization in **California, Oregon, Washington, Idaho and Nevada**, the **Pacific West BIOMASS Conference & Expo** will connect current and future producers of biomass-derived electricity, industrial heat and power, and advanced biofuels, with waste generators, aggregators, growers, municipal leaders, utilities, technology providers, equipment manufacturers, investors and policy makers.

✚ 2010 International Builders Show

Date: January 19 – 22, 2010

Location: Las Vegas, NV

Website: www.buildershow.com

The International Builders' Show is THE premier industry event. As the largest building industry tradeshow in the country, this is the place to recharge your business! Get inspired with the more than 175 education sessions and network with the best in the industry! Las Vegas is the place YOU need to be in January!

FEBRUARY

✚ EUEC Energy & Environment Conference

Date: February 1 – 3, 2010

Location: Phoenix Convention Center – Phoenix, AZ

Website: www.euec.com

Quick Facts

- North America's Largest Energy & Environment Conference & Expo with a Solar Pavilion and an exclusive track to promote solar energy in Arizona
- 250+ exhibitors with an Exclusive Solar Pavilion for solar technologies:
 - PV, CSP, solar hot water, solar heating, cooling and solar pool heating
 - 4,000+ Delegates & Attendees:
 - sellers, buyers, manufacturers, integrators, installers, utilities, investors, builders, large energy users and policymakers
- 700+ Speakers in 10 Tracks, 15 workshops, and 70+ educational sessions

✚ 20th Annual AESP's National Conference & Expo

Date: February 9 – 11, 2010

Location: Tucson El Conquistador, Tucson, AZ

Website: <http://aesp.org/cde.cfm?event=267720>

AESP's National Conference & Expo is the premier energy industry conference that unites renowned energy experts, stimulating educational sessions, and valuable networking opportunities into one convenient location. You will discover new ideas for your marketing and energy efficiency programs; learn about emerging market trends and technologies; and meet with colleagues to share experiences.

APRIL

✚ ACI Home Performance Conference 2010

Date: April 19 – 23, 2010

Location: Renaissance Austin Hotel, Austin, TX

Website: www.affordablecomfort.org/event/aci_home_performance_conference_2010

An advancing home performance conference.

MAY

✚ NHA Hydrogen Conference & Expo

Date: May 3 – 6, 2010

Location: Long Beach, CA

Website: www.hydrogenconference.org

The NHA Hydrogen Conference and Expo is the largest hydrogen conference in the U.S. and the longest running annual hydrogen conference in the world. This event will be your best opportunity of the year to learn about breakthroughs, progress on commercialization challenges and network over a few days with the brightest minds and business leaders in the industry.

✚ International BIOMASS Conference & Expo

Date: May 4 – 6, 2010

Location: Minneapolis Convention Center, Minneapolis, CA

Website: www.biomassconference.com

The BIOMASS Conference & Expo unites current and future producers of biomass-derived power, fuels and chemicals with waste generators, energy crop growers, municipal leaders, utility executives, technology providers, equipment manufacturers, project developers, investors and policy makers.

✦ Energy Efficiency Global Forum & Exposition

Date: May 10 - 12, 2010

Location: Washington DC Convention Center

Website: www.eeglobalforum.org

After **EE Global 2009 in Paris**, this year's event returns to the epicenter of U.S. energy and climate policy to expand the patented EE Global experience. Expect more interactive sessions, more networking opportunities, and a fresh approach to the traditional exhibition hall: the **Solutions Showcase**. At **EE Global 2010**, participants will discover the **ideas, intersections and solutions** for growing energy-efficient economies. They will forge partnerships and international alliances to stabilize transitions to low-carbon markets. And they will contribute to the catalogue of best practices in energy efficiency upon which a new energy world order will be founded.

✦ ASES National Solar Conference

Date: May 17 – 22, 2010

Location: Phoenix Convention Center – Phoenix, AZ

Website: http://www.ases.org/index.php?option=com_content&view=article&id=18&Itemid=18

The National Solar Energy Conference is the premier technical conference for solar energy and energy efficiency professionals in the U.S. In its 38th year, this industry-leading conference series offers you emerging trends, technological breakthroughs, industry insight, and connections you need to stay ahead.

JUNE

✦ West Coast Energy Management Congress (EMC)

Date: June 15 – 16, 2010

Location: Washington State Convention & Trade Center – Seattle WA

Website: www.energyevent.com/EMCbody.htm

The **West Coast Energy Management Congress (EMC)** is the largest energy conference and technology expo held on the U.S. West Coast specifically for business, industrial and institutional energy users. It brings together the top experts in all areas of the field to help you set a clear, optimum path to both energy cost control and energy supply security. You can explore promising new technologies, compare energy supply and alternative energy options, and learn about innovative project implementation strategies. The multi-track conference covers a variety of topics, many specific to the region. The full EMC 2010 agenda includes the two-day conference and expo, as well as several optional intensive seminars.
