

Switzerland

Your International Management Gateway to Europe

- In the heart of Europe
- Business friendly
- Highly qualified workforce

Business Breakfast

Switzerland is the number one choice for American companies seeking fast and sustainable growth in Europe. Nearly 700 U.S. companies including eBay, Google, Kraft, J & J, and Medtronic already enjoy the moderate taxation, well-educated workforce, and pro-business legal structure offered.

A distinguished group of delegates will discuss the advantages of using Switzerland as a central access point for your business in Europe. Discussion topics include access to funding, tax planning, corporate structures, support for start-ups, and availability of qualified workforce. Delegates include representatives of Swiss federal and regional economic development agencies and KPMG.

Words of welcome by Roland Rietmann, Deputy Consul General of Switzerland in Los Angeles, and Alisa C. Jost, Honorary Consul of Switzerland in Phoenix.

The event is organized by

Switzerland Trade and Investment Promotion

The official Swiss federal agency providing free advice and assistance to companies on all aspects of setting up or expanding business activities in Switzerland.

In collaboration with our valued partners: **ASU-SkySong and KPMG International**
