

Join us for a Complimentary Lunch & Learn!

Overview of Environmental Obligations for Manufacturing Facilities in Arizona

October 25, 2017 | 11:00 AM - 1:00 PM | Phoenix, AZ

This workshop is presented in conjunction with RevAZ for those who wish to learn about or gain a better understanding of environmental regulations for manufacturing facilities located in Arizona. The overview will cover such essential topics as air quality permitting and compliance; water quality permitting and compliance; waste management; spill prevention, control and countermeasures planning; emergency planning and community right-to-know; and toxics substances control. This lunch & learn will enable attendees to understand:

- Which regulations may apply and why
- The time and cost associated with securing the necessary environmental permits
- What inspectors typically look for during a site-inspection
- The costs associated with non-compliance with these requirements

To register for this **complimentary lunch & learn**, please contact Laura Cash at (602) 274-2900 ext. 100 or lcash@trinityconsultants.com. For questions please contact Lauri Larson at LauriL@AZcommerce.com.
