

amazonbusiness

Everything you love about Amazon. For government.

Amazon Business brings the Amazon marketplace to government, with new features and unique benefits that make it easy to drive savings for taxpayers and meet critical government-mission needs. Tens of thousands of government customers, from buyers in cities, counties, states and federal agencies, are purchasing from Amazon Business to achieve cost-savings goals, meet compliance requirements, reduce procurement complexity and access unmatched selection breadth. Amazon Business is built on Amazon's familiar, easy-to-use shopping experience and provides access to hundreds of millions of products, convenient and free shipping options and competitive pricing. With multi-user accounts, purchase approvals, tax-exempt purchasing, exclusive price and quantity discounts, negotiated pricing and procurement-system integration, Amazon Business is tailored for procurement organizations. The competitive marketplace helps customers know they're getting the right product at the right price to meet their important organizational needs.

Preventing Government Purchase Card Fraud, Waste and Abuse

Many public sector entities are required to implement controls to combat improper and abusive purchase card (P-card) activities. Amazon Business empowers these agencies to monitor and control P-card spend, to ensure appropriate record retention, and assist public sector entities to comply with applicable laws. Our approval workflows and analytics tools create greater control and visibility into public sector spend.

Price Competition and Visibility

Amazon Business makes it easy for public sector customers to find the price competition they need - in a marketplace that shows offers from multiple sellers on a single page. This allows buyers to make purchases - no matter how large or small - and ensure they're getting a fair, competitive price. Today, hundreds of thousands of business sellers sell goods on the Amazon Business marketplace.
