

Building A Supply Chain Cost Reduction Pipeline

LIVE WEBINAR: Thursday, December 10th

Supply Chains are complex. Let's take an in-depth look at supply chain drivers, discuss strategy on how to build a supply chain reduction pipeline.

Join us for this informational webinar with a supply chain veteran and practitioner. The webinar focuses on:

- What are the major cost categories in your supply chain
- What are some short- and long-term strategies for reducing cost in the supply chain
- How to use modernization as a cost lever

This is the fourth of a five-part series on Supply Chain Management. Be sure to register for the entire series.
