

The Entrepreneurial Operating System® (EOS)

Get A Grip On Your Business: Clarify, Simplify and Achieve Your Vision

WEBINAR: Wednesday, March 3rd

Are you a business owner or a senior level executive wanting to see your business consistently run better and grow faster? Learn how to get more of what you want from your business!

Join this webinar to learn about a simple yet powerful way to run your company that will give you and your leadership team more focus, growth and enjoyment. This webinar is a must for any business owner and their leadership team.

Participants at the webinar will:

- Understand the six keys to building a truly great organization
- Be inspired to roll up their sleeves and confront organizational issues head-on
- Learn how to get everyone focused on achieving a clear company vision
- Be motivated to instill discipline and accountability throughout the organization

Get introduced to a complete set of simple concepts and practical tools being used by thousands of entrepreneurial leadership teams to clarify, simplify and achieve their vision – the Entrepreneurial Operating System (EOS)® as described in the book *Traction*, by Gino Wickman.

At the conclusion of the webinar, you will walk away with the knowledge of a business operating system, and a set of simple, practical real-world tools you and your leadership team can begin using right away to run a better business and get better results!
