How To Be A Leader vs A Manager

LIVE WEBINAR: Wednesday, May 12th

We've all seen the movies and know what it takes to be a superhero (and a super leader). The hero is given a superpower, whether by the gods or fate or even a scientific accident, and then must learn to harness and channel it for the good. The point is, the gift is external, an accident, it's something no "ordinary" person can hope to receive.

This course is for the business owner who wants to learn how to awaken their own superpowers in the form of effective leadership. Whether we are trying to lead ourselves, a small work team, or thousands of people around the world, we already have the power—we simply have to nurture and channel it.

Attend this webinar and you will:

- Tap into your pre-existing skills
- Learn the difference between leadership and management
- Receive practical tips on how to use effective leadership tools
- Learn the aspects of everyday leadership
