

# Are Transportation Costs Eating Your Profits?

## How To Reduce Shipping Costs

**LIVE WEBINAR: Wednesday, April 28th**

No company is immune to the current climate of rising transportation costs. If you are unable to pass on these increases to your customer, then your profitability is suffering.

Join us for this informative webinar as we discuss solutions for shipping: your smallest package (Parcel), less than truck load (LTL), and ocean containers.

There are ways to save money and time so you can increase profits.

**This webinar is for business leaders who want :**

- To leverage combined volume to access the best rates for shipping Parcel, LTL, and Ocean Containers.
- Access to Transportation Management System technology to help make fast and informed shipping decisions.
- Shipping rates that usually only the largest companies with the highest volumes get
- To save money, save time, and increase profit.
