Winters Film Group provides production services for production in Arizona and the world. Specializing in feature films, TV, music videos, and commercials, we have the experience and the equipment to supply whatever you need for your production.

From our digital cinema camera packages (Arri Alexa 35 and Panasonic Varicam LT) to our 3 ton grip truck packed with lights, grip and electric, dollies, and a crane, we can provide whatever you need for the small to medium size production.

We have shot all over the southwest and California. We especially know Arizona. From great locations, to talented crew, to the best equipment, we have you covered.

Winters Film Group has vast experience in film and TV production. Director/cinematographer/producer Paul Winters has produced and/or developed film and TV for all of the major Hollywood studios.

Producer Patty Winters has produced feature films, TV, and commercials for over ten years.

We also maintain a complete western wardrobe that includes western prop guns, holsters, hats, and boots.
