

CMMC Compliance: Building a Roadmap

Prepare Your Company for Compliance Today

Is your organization prepared for the future of cybersecurity compliance? Join us for a comprehensive workshop designed to simplify the CMMC framework and guide your business toward compliance success. The objective of this workshop is to equip companies with the knowledge and tools necessary to achieve CMMC compliance.

With practical examples and engaging discussions, you'll learn to assess your current security posture, identify gaps, and develop a personalized action plan. Our interactive activities will provide hands-on experience, helping you streamline your path towards compliance.

What You'll Learn:

- Understanding differences between Level 1 (FAR 52.204-21) and Level 2 (NIST 800-171)
- Comprehensive understanding of the 15 requirements outlined for Level 1 compliance
- How to identify and close compliance gaps to meet federal contract requirements.
- How to create a System Security Plan (SSP) and Plan of Action & Milestones (POA&M) for Level 2 compliance.

Key Topics:

- Risk Mitigation
- Federal Contract Readiness
- SPRS Scoring Insights
- Tailored Compliance Solutions
- Developing a POA&M
- CUI Safeguarding Strategies

Wednesday, September 17, 2025

7:30 - 8:00 am: Continental Breakfast and Networking

8:00 am - 3:00 pm - Full Day Learning Session (Includes Lunch)

Cost: \$499.00 per company (Up to 2 people per company)

**Arizona Commerce Authority - 100 N 7th Avenue - Phoenix
First Floor Conference Center**

Activities:

- Interactive Gap Analysis Exercise: identify Level 1 & 2 compliance gaps
- Develop a roadmap for CMMC compliance tailored to your company
- Hands-on Planning: Draft components of an SSP and POA&M for your company
- Panel Discussion: Share insights and explore strategies

Who Should Attend: This workshop is designed for SMBs aiming to achieve CMMC compliance or handle CUI (Controlled Unclassified Information) for federal contracts. It's ideal for business owners, IT staff, and compliance professionals responsible for their organization's cybersecurity and regulatory requirements.
