

# Overview of Lean with LEGOs Simulation

SPACE IS LIMITED! REGISTER SOON!

## Wednesday, July 7th

The focus of this 4-hour workshop is to educate/train employees in a short, concentrated manner, a number of the basic Lean principles. This training will help those participating to see how continuous improvement can be applied through the utilization of Lean concepts throughout the company.

### Topics to be covered include:

- Lean Definitions (Lead time, Cycle time, Value Added vs Non-value added)
- The 8 Wastes
- Selected Tools from the House of Lean (i.e. SS, Standard Work, Visual Control, POUS, Pul, KanBan).
- Two rounds of Hands-on simulation (LEGOs)

### Who Should Attend

Business and manufacturing leaders and anyone who would like to understand the basic Lean concepts and start on the road to Lean Manufacturing. Companies that are interested in reducing their inventory, improving their overall quality, improving their on-time delivery performance, improving their productivity and lowering their manufacturing costs.
