

May 6, 2021 2019-2029 Employment Projections

Doug Walls, Labor Market Information Director

Industry Projections Methodology: Estimation Process

- The long-term projections process estimates employment ten years into the future
 - Historic 2019 employment data are used as the base year of the forecast
 - Employment estimates for 2019 are the latest available annual data published by the BLS QCEW program
 - Projected data are modeled for forecast-year 2029
- Projected employment estimates are created using historical employment trends
- Estimates are refined through a review of current U.S. and Arizona economic trends

Industry Projections Methodology: Estimation Process

- The principal data source is the Quarterly Census of Employment and Wages (QCEW) data
 - Near <u>census</u> of all employment subject to unemployment insurance tax law (92%-95% of total Arizona Employment)
- The QCEW industry classification structure differs slightly from the CES industry classification structure
 - Notably:
 - QCEW: State and local government education employment is categorized in the Educational Services sector
 - <u>CES</u>: State and local government education employment is categorized in the Government sector

Industry Projections Methodology: Data Source

- Industry Projections Estimates Include:
 - Nonfarm employment
 - Self-employed workers
 - Private household workers
 - Railway workers
 - Religious organization workers
 - Farm workers
- Industry Projections Estimates Exclude:
 - Unpaid family workers
 - Active duty military service personnel

Substate Regions

Projected employment was estimated for 20 substate regions including:

All Fifteen Arizona Counties

Three Multi-County Areas

- Northeast Arizona: Apache, Navajo, and Gila Counties
- Southeast Arizona: Greenlee, Graham, and Cochise Counties
- Mohave and La Paz Counties

Two Sub-County Areas

• City of Phoenix and Balance of Maricopa County

Industry Projections Methodology: Economic Assumptions

- No major economic or political disruptions will occur
- Government agencies will operate within their budgets
- Population distribution will not differ significantly
- The U.S. economic framework will not differ significantly
- Long-term employment patterns will continue in most industries

The projections methodology in its entirety can be found at https://www.azcommerce.com/media/1545673/lt_proj_method.pdf

Additional Forecast Assumptions

- Arizona's population growth will continue to be one of the strongest in the nation.
- The demand for health care services will continue to increase as a large portion of the population reaches medicare eligibility age.
- Nonstore retail and transportation and warehousing will drive employment growth within the retail trade sector.
- Impacts of COVID-19 on long-term job growth will be minimal, though not zero, and will be concentrated primarily in the leisure and hospitality industry.

Arizona Projections Highlights

- Total Arizona employment is projected to grow by 549,453 jobs over the ten-year period, reaching 3,666,136 jobs in 2029.
- Total Arizona employment is projected to grow 1.6% annually (17.6% total growth) from 2019-2029.
- Arizona employment growth (1.6% annualized) is projected to outpace U.S. employment growth (0.4% annualized) over the ten-year period.
- Educational and Health Services is projected to add the largest number of jobs (20,784 jobs annually).
- Educational and Health Services is also projected to record the largest percentage gain, growing 2.8% annually.

Projected Employment Growth Comparison

	Employment Levels		Employment Change			
Area	2019	2029	Numeric Change	Percentage Change	Annualized % Change	
Arizona	3,116,683	3,666,136	549,453	17.6%	1.6%	
United States	162,795,600	168,834,700	6,039,200	3.7%	0.4%	

Source: Arizona Office of Economic Opportunity

Note: National 2019-2029 projections were released on September 1, 2020

Arizona Total Employment

Source: Arizona Office of Economic Opportunity

Total employment is projected to grow 549,453 jobs or 1.6% annually from 2019-2029

- From 2009-2019, total employment grew by 539,350 jobs or 1.9% annually
- From 1999-2009, total employment grew by 305,905 jobs or 1.3%

Economic Trends

Short-term

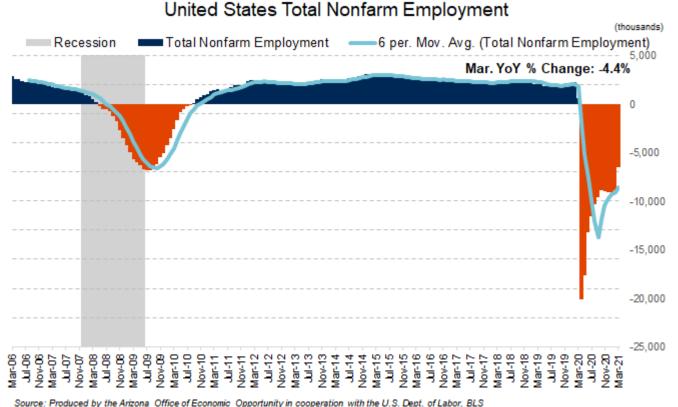

- As of May 3, 2021, 30% of the Arizona population and 32% of the U.S. population were fully vaccinated for COVID-19.
- As of March 2021, the United States and Arizona have recovered 62% and 68% of the jobs lost during the COVID-19 pandemic, respectively.

Long-term

- U.S. population continues to grow, but at a decelerating pace.
- Arizona population growth has been among the fastest in the nation.
- A significant portion of the U.S. population is nearing retirement age, which will impact the demand for health care services.
- Online retail (e-commerce) continues to grow in popularity among consumers.
- The Arizona labor force has grown steadily over the past two decades.

U.S. Nonfarm Employment

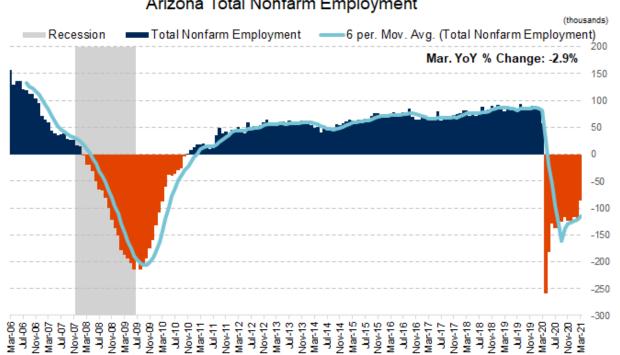

U.S. nonfarm employment recorded YoY losses in the past 12 months following 115 consecutive months of YoY growth

- April 2020: declined 13.4% YoY
- March 2021: declined 4.4% YoY

ARIZONA OFFICE OF ECONOMIC OPPORTUNITY

Note: Data are Not Seasonally Adjusted

Arizona Nonfarm Employment

Arizona Total Nonfarm Employment

oduced by the Arizona. Office of Economic. Opportunity in cooperation with the U

Note: Data are Not Seasonally Adjusted

Arizona employment decreased by 86,000 jobs from Mar. 2020 to Mar. 2021

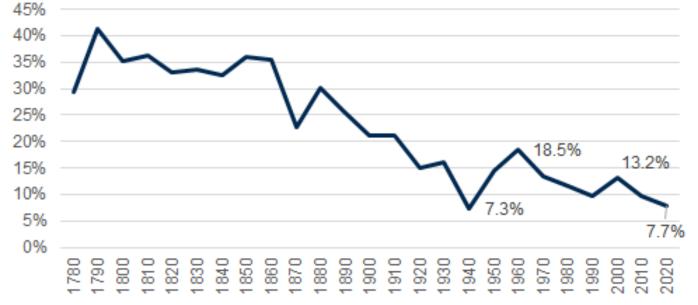

Mar. 2020 employment declines were not as dramatic as losses recorded nationally.

- Arizona employment declined by 2.9% YoY
- U.S. employment declined by 4.4% YoY •

Decennial Census Population Growth

Source: U.S. Census Bureau

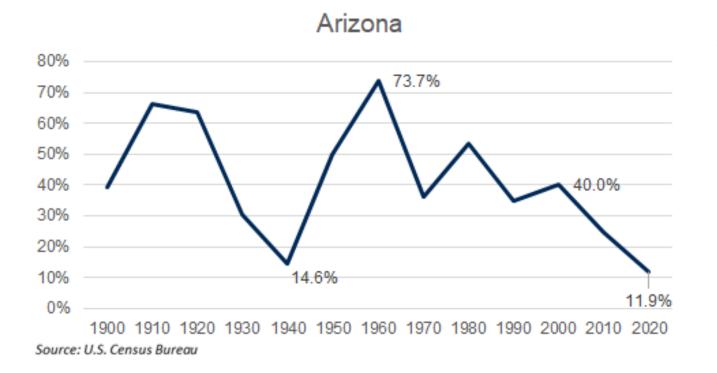

United States

The population growth rate from 2010-2020 was the second slowest growth rate on record (1780-2020).

- The U.S. population grew by 7.7% from 2010-2020.
- The 2010-2020 population growth rate was the slowest since the Great Depression (1930-1940).

Decennial Census Population Growth

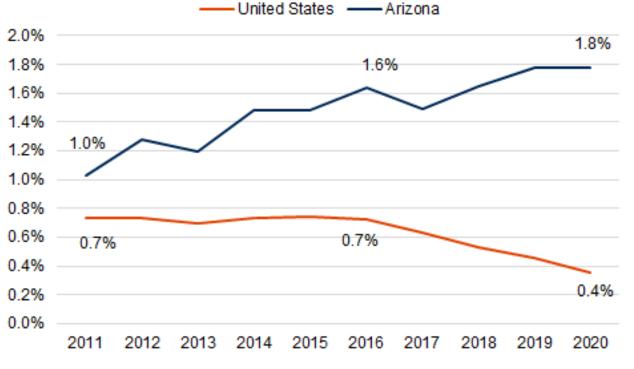

Arizona's 2010-2020 population growth was one of the fastest in the nation, but slower than growth in past decades.

- From 2010-2020, Arizona population grew by 11.9%.
 - Arizona's population growth ranked 9 in the nation
 - Growth from 2010-2020 was the slowest on record for Arizona (1900-2020).

Population Growth

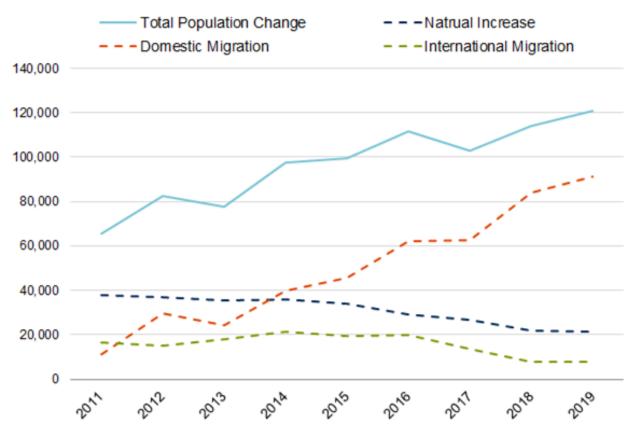

Source: U.S. Census Bureau

- U.S. population continues to grow, but at a decelerating pace
- Arizona's 2020 population growth rate was four times larger than the U.S. population growth rate
- Arizona population growth ranked 2 in the nation in 2020 and 3 in 2019

Arizona Annual Population Change

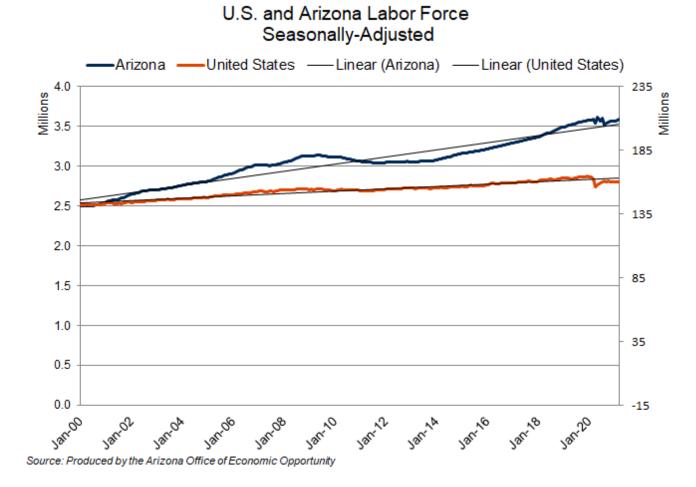

Source: U.S Census Bureau

Arizona's strong population growth can be attributed to an increase in domestic migration into the state.

- In 2011, total migration accounted for 42% of total population growth.
- In 2019, total migration accounted for 82% of total population growth.
- Arizona migration growth ranked 3rd in the nation in 2019.

Labor Force Growth

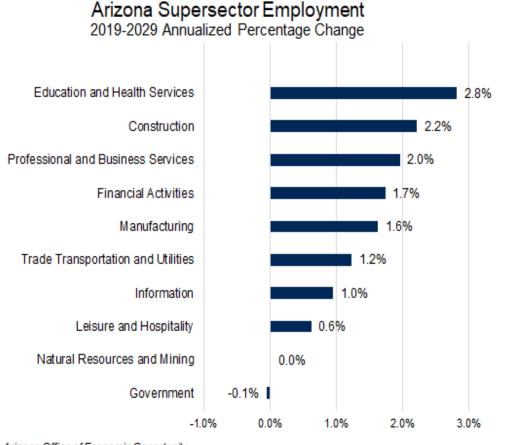

The Arizona labor force grew by more than 1 million people over the past two decades (Mar. '01 - Mar. '21)

The Arizona labor force grew more than three times faster than the U.S. labor force from Mar. '01 to Mar. '21

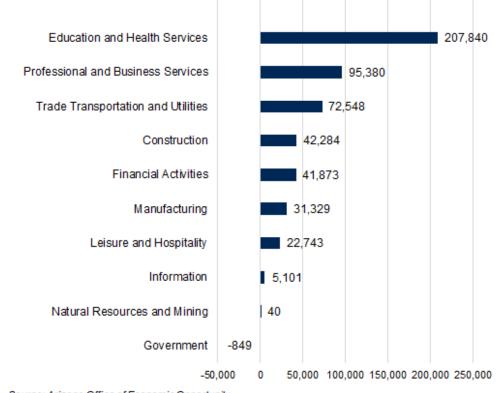

- Arizona labor force grew by 1.7% annually
- U.S. labor force grew by 0.5% annually

Source: U.S Census Bureau		

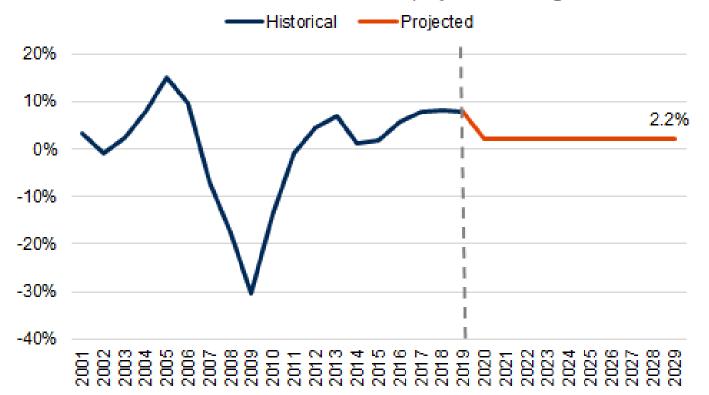

Total Population Change by County 2010 to 2019

From 2010-2019, Arizona's total population increased by 871,545 people

 Maricopa County accounted for 76% (660,000 people) of the total population change for the state.

Industry Highlight: Construction

Arizona Construction YoY Employment Change

Construction employment growth is projected to continue through 2029

- Demand to purchase and rent residential housing is likely to continue
- Population growth is likely to continue, driving demand for residential construction

U.S. Housing Supply

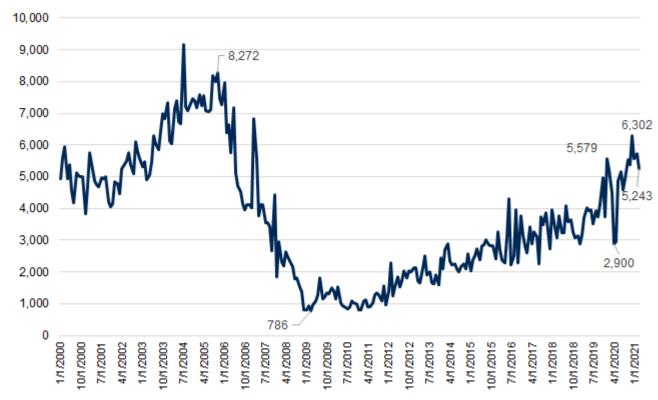

Source: Board of Governors of the Federal Reserve System (US)

Housing Supply rates remain at record lows.

• Since 2000, the average housing supply rate has been 5.7%. The March 2021 Housing supply rate is 3.6%

Arizona New Private Housing Units Authorized by Building Permits

Source: U.S. Census Bureau

Note: Data are Seasonally Adjusted

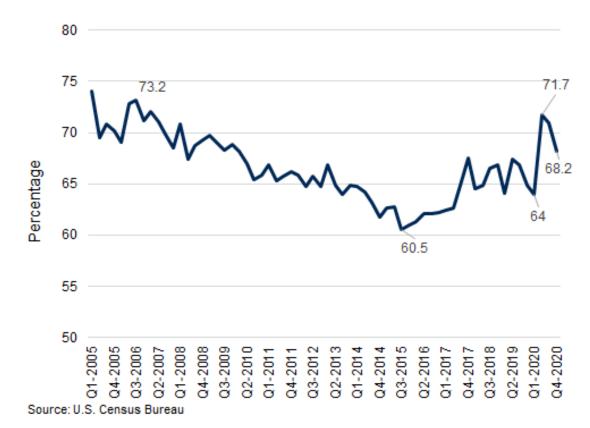

Building permit authorizations steadily increased from 2010-2019

Because of the COVID-19 pandemic, building permit authorizations dramatically declined in April 2020.

 5,243 building permits were authorized in March 2021, up 745 (16.6%) permit authorizations from March 2020.

Arizona Homeownership Rate

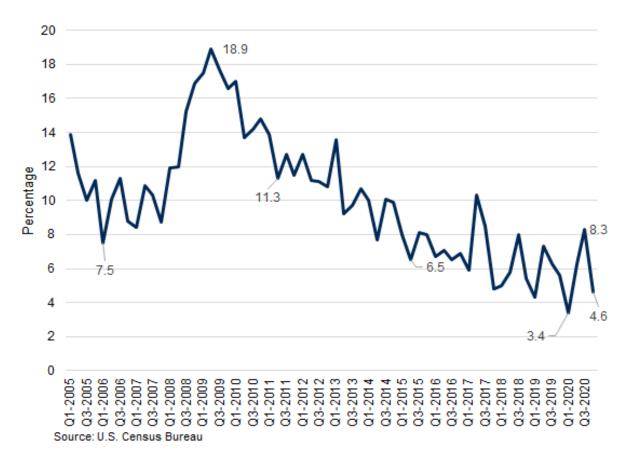

Note: Data are Not Seasonally Adjusted

Demand for residential housing continues

- Homeownership rates have continued to increase over the past five years
- Homeownership rates rebounded from historic lows of 60.5% in 2015 to 68.2% in Q4 2020

Arizona Rental Vacancy Rate

Note: Data are Not Seasonally Adjusted

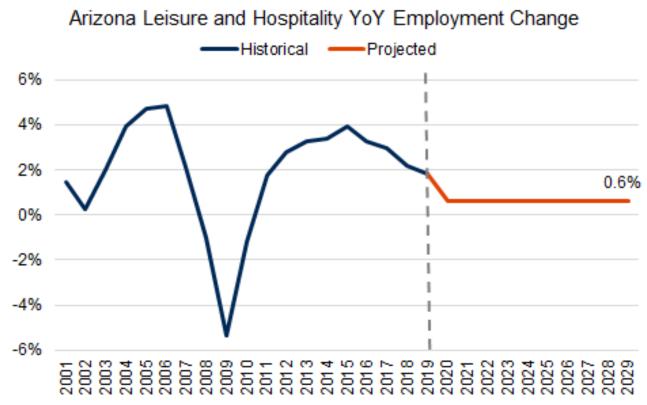

Demand for rental housing continues to outpace supply

 The rental vacancy rate has declined to near historic lows in Q4 2020

Construction employment is projected to increase as new residential housing is needed to meet demand

Industry Highlight: Leisure and Hospitality

Source: Arizona Office of Economic Opportunity

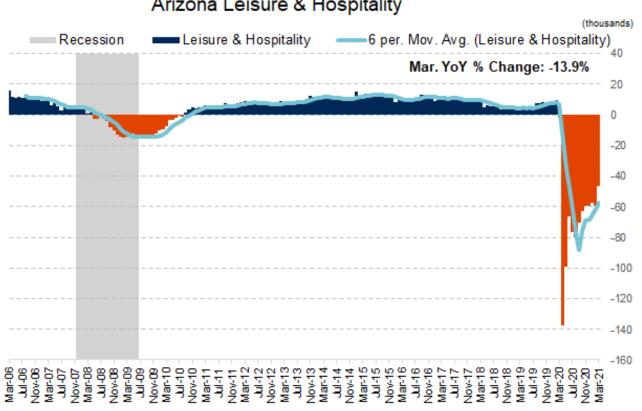

Leisure and Hospitality (L&H) is projected to gain jobs through 2029, though at a slower pace than it has in recent years

Job gains are projected to be strongest in:

- Food Service and Drinking Places (0.8% annual growth)
- Accommodation (0.4% annual growth)
- Amusement, Gambling, and Rec. Industries (0.3% annual growth)

Industry Highlight: Leisure and Hospitality

Arizona Leisure & Hospitality

Source roduced by the Arizona Office of Economic Opportunity in cooperation with the U.S. Dept. of Labor, BLS

Note: Data are Not Seasonally Adjusted

Leisure and Hospitality (L&H) recorded the largest job declines of any sector because of the COVID-19 pandemic

- In April 2020, L&H employment was down by • 40.7% YoY
- In March 2021, L&H employment was down ٠ by 13.9% YoY

Industry Highlight: Health Care and Social Assistance

	Historic C (2009-2	<u> </u>	Projected Change ² (2019-2029)		
Sector	Numeric Change	% Change (Annual)	Numeric Change	% Change (Annual)	
Health Care and Social Assistance	112,114	3.2%	180,544	3.7%	
Ambulatory Health Care Services	46,032	3.1%	79,885	3.8%	
Hospitals	24,936	2.5%	42,203	3.2%	
Nursing and Residential Care Facilities	24,936	3.4%	27,787	4.0%	
Social Assistance	16,470	4.8%	30,669	3.9%	

Source: Arizona Office of Economic Opportunity

Health Care employment is projected to increase by 3.7% annually from 2019-2029

- Projected growth is higher than the 2009-2019 growth rate of 3.2%
- Growth will be driven, in part, by increasing population growth and an aging population

The Aging U.S. Population

Source: Federal Reserve Bank of St. Louis

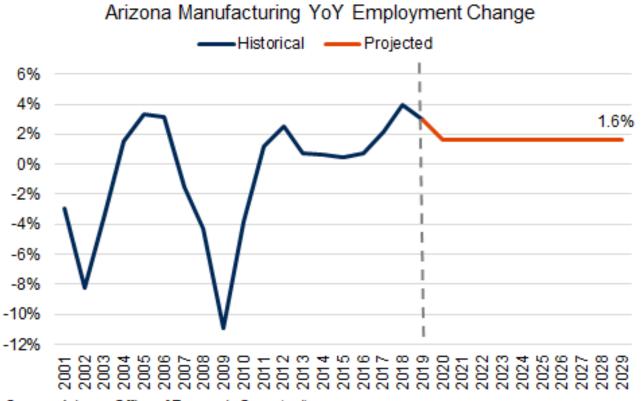

The number of people reaching retirement age is on the rise¹

In 2023 along, more than 180,000 residents will turn 65 each month.

Research has shown that nearly half of lifetime medical expenditures is incurred during the senior years (age 65+)²

Industry Highlight: Manufacturing

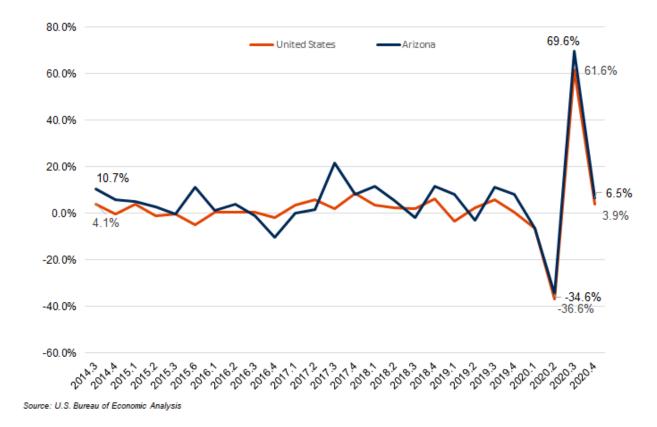

Source: Arizona Office of Economic Opportunity

Manufacturing employment growth is projected to continue through 2029

 From 2017-2020, manufacturing gained 11,100 jobs, growing by 2.2% annually (Source: BLS CES)

Real Manufacturing GDP Seasonally Adjusted Annual Rate

Mfg. GDP posted positive growth in Q3 and Q4 2020

Mfg. job gains in 2019-2029 are projected to be strongest in:

- Chemical Manufacturing* (3.0% annual growth)
- Miscellaneous Manufacturing** (2.9% annual growth)
- Food and Beverage Manufacturing (2.8% annual growth)

*<u>Chemical Mfg.</u> is comprised of Petrochemical; Industrial Gas; and Synthetic Dye Mfg., among others **<u>Miscellaneous Mfg.</u> is composed of Medical Equipment, Jewelry, Sporting Goods and Office Supplies Mfg., among others

Industry Highlight: Transportation and Warehousing

		Change ¹ -2019)	Projected Change ² (2019-2029)		
Sector	Numeric Change	% Change (Annual)	Numeric Change	% Change (Annual)	
Transportation and Warehousing	36,429	4.2%	51,493	4.0%	
Couriers and Messengers	5,314	4.8%	11,682	6.2%	
Scenic and Sightseeing Transportation	245	4.5%	87	1.2%	
Support Activities for Transportation	4,630	3.7%	4,452	2.6%	
Truck Transportation	5,407	2.7%	5,998	2.3%	
Warehousing and Storage	17,701	11.4%	26,364	7.1%	

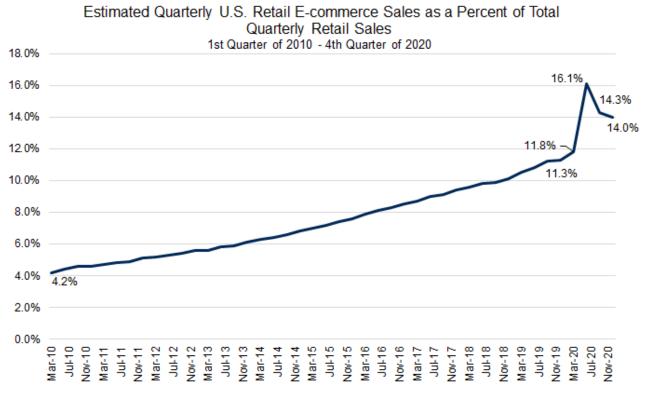

Source: Arizona Office of Economic Opportunity

Job growth in Warehousing and Storage is projected to account for the majority of job gains in Transportation and Warehousing

- Warehousing and Storage employment more than doubled over the past five years (2015-2020) and quadrupled over the past ten years (2010-2020)
- The emergence of online retail has increased the demand for warehousing and storage jobs

U.S. E-Commerce (Online Retail) Sales

Over the past two decades, e-commerce has accounted for an increasing percent of total retail sales

 E-commerce sales as a percent of total retail sales increased to 16.1% in Q2 2020 from 11.8% in Q1 2020

Source: U.S. Census Bureau

Note: Data are Not Seasonally Adjusted

U.S. Personal Consumption Expenditures (PCE)

U.S. PCE bounced back, almost reaching its pre-pandemic level in February 2021 after recording the largest decline in the past ten years in April 2020

Over the year, U.S. PCE declined by -2.1%

Report Summary

- Total employment is projected to continue gaining jobs, growing by 1.6% annually from 2019 2029.
- All ten private sector major industries are projected to add jobs through 2029.
- All fifteen Arizona counties are projected to add jobs through 2029.
- Growth is projected to be led by Education and Health Services (2.8% annually), Construction (2.2% annually), and Professional and Business Services (2.0% annually).
- Health care jobs will continue to grow across the state as demand for health care services is anticipated to increase.
