

Introduction and Overview to Training Within Industry (TWI)

Wednesday, January 26th

Training Within Industry, TWI, is a dynamic program of hands-on learning and practice, teaching essential skills for supervisors, team leaders, and anyone who directs the work of others. TWI is an essential element of Lean and continuous improvement programs around the world.

Join us as we explore the elements of TWI in this informative 4-hour workshop. We'll cover the history, the five needs model for all supervisors and an overview of the 3 main modules:

Job Instruction Project Objectives:

- *Train supervisors to effectively instruct
- *Increase productivity of your entire team
- *Reduce scrap
- *Implement new knowledge into the workplace

Job Relations Project Objectives:

- *Assist in creating a culture for change
- *Teaches supervisors how to build positive employee relations
- *Increase cooperation and motivation
- *Effective conflict resolution

Job Methods Project Objectives:

- *Train supervisors in how to effectively solve problems
- *Increase production by at least 25%
- *Reduce labor-hours by over 25%
- *Reduce grievances by more than 25%
- *Reduce training time by 25% or more
- *Reduce scrap by at least 25%
