Issue Title: Additional Marketing Outreach

Cost

AA1000 – Arizona Commerce Authority Operating Fund	<u>\$1,000,000</u>
Total	\$ 1,000,000

Background

The appropriation to the ACA Operating Fund has been the same for the past 10 years at \$10,000,000. While this funding was intended for operations, no marketing budget was included. The ACA has been funding marketing out of these funds and whatever other sources available including the Carryover Fund which is now nearly depleted.

With recent announcements from Taiwan Semiconductor Manufacturing Company (TSMC), Intel Corporation and Kore Power, businesses around the world are paying close attention to Arizona's competitive value proposition. Furthermore, Arizona's affordable cost of living and unmatched quality of life are luring highly skilled workers seeking refuge from overpriced, life-limiting areas of the country.

The Arizona Commerce Authority has the opportunity to capitalize on the state's economic strengths, stability and momentum, further elevating awareness and preference as the best place to live, work and do business.

With an additional \$1 million, the Arizona Commerce Authority would be able to elevate awareness and interest from global companies like TSMC and Intel through print and digital marketing. Attached in an overview of the proposed marketing strategy.

The ACA continues to collaborate with the Arizona Office of Tourism on messaging and the ACA uses a blend of lifestyle and business in our marketing campaigns. Earlier this year, the Governor announced the Visit Arizona Initiative, investing over \$100 million to reinvigorate our tourism industry, devastated by the pandemic. While this is great marketing for the state and is co-branded with the new State logo developed by the ACA, these marketing efforts target a much different audience than the business executives making decisions on relocation and expansion projects. This request is a much more modest complement to the Visit Arizona Initiative in support of growing our economic base in Arizona.

With the expanding role of ACA in infrastructure and innovation to support the current and future economy, carving out money for marketing from the Operating budget is becoming more challenging. In FY2020, the ACA spent \$2.2 million (excluding personnel costs) out of the \$10 million Operating budget on marketing. In FY2021 that amount was reduced to \$1.4 million. The additional funding should allow the ACA to increase its marketing impact closer to the FY2020 level.

Options Considered

The ACA has exhausted efforts available within the limited budget for the past ten years relying largely on low cost mediums, largely digital, with little ability for targeted or international reach.

Why is the recommended option the best option?

Arizona has never had a more compelling message than the recent surge in business attraction activity, especially in the advanced manufacturing industries. Not capitalizing on this momentum would be a missed opportunity to secure millions in economic growth and significant fiscal impacts for the State.

Strategic Initiatives Affected

This funding directly impacts the ACA's primary strategic initiative to attract and expand businesses in the state.

Performance Measures that will be used to evaluate the outcome

Leading metrics will include market reach and number of impressions along with new pipeline opportunities.

Ultimate metrics will be new Arizona high-quality jobs and capital investments.

Arizona Commerce Authority

\$1 million media recommendation

Overview

Today, the U.S. economy is recovering, and business is growing across the country. Arizona is in a unique position to capitalize on its booming economy by elevating awareness and preference as a place to do business. Arizona has a compelling and unique message that strikes a perfect balance of business and lifestyle. Our goal is to heighten awareness of Arizona and take our place as a chosen destination for business.

Media goals

Elevate awareness and interest to recruit out-of-state and global companies to relocate and/or expand their operations to Arizona as well as prompt growth amongst companies currently in Arizona.

Media strategies

- Utilize broad, mass broadcast outlets to both visually and verbally illustrate why Arizona offers such a compelling message to business.
- Continue to leverage past and existing relationships with premium print publications both locally and nationally.
- Utilize targeted digital media to reach executives and decision-makers with unique/one-to-one messages that relate specifically to their categories.

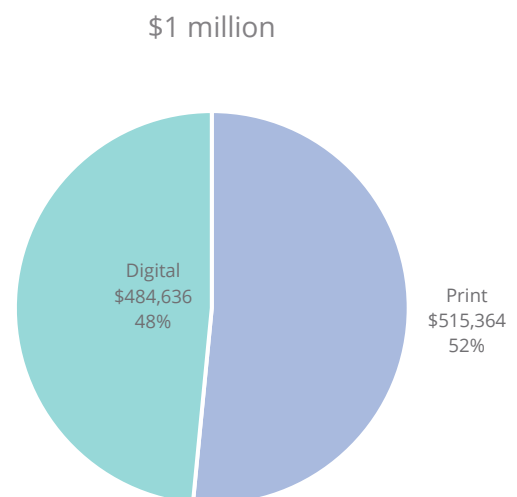

Recommended tactics

National and local print: publications may include Fast Co., Harvard Business Review, SIOR, C-Suite Quarterly, The Registry San Francisco, Southwest: The Magazine, Phoenix Business Journal, etc.

- Estimated impressions: 11 million
- Timing: Sept – Nov, Jan – Apr

Digital: targeting c-suite executives of companies with over 200 employees including programmatic, mobile, video, social, retargeting, search, native, and content amplification across premium business sites.

- Estimated impressions: 100 million
- Timing: always on

FUNDING ISSUE – 1237 APPROPRIATIONS

Job Training funding discontinued and program will cease once funds are depleted.

Issue Title: Frankfurt Germany Trade Office- Continuation Funding

Cost

AA10000 General Fund

\$250,000

Total

\$ 250,000

Background

As part of the FY2022 Budget bill, the ACA was allocated \$250,000 to create and staff a trade office in Frankfurt. No provision in the funding bill called for continuing funding for this office. In order to sustain office lease payments and staffing for this office a sustainable funding stream needs to be established which we believe was the original intent.

As stated in the FY 2022 Appropriations Report, the \$250,000 is listed as "one-time funding". The ACA is requesting this office be codified similar to the three Mexico and the Israel offices in FY2023. As with all trade offices, the recommendation is to also make the funding non-lapsing since many of the activities in these trade offices require months-worth of pre-planning which does not fit neatly into the State fiscal year.

Options Considered

There is no realistic option to stand up a new foreign trade office than to anticipate multi-year funding.

Why is the recommended option the best option?

Continued funding is the only option to support a successful deployment of a foreign trade office.

Strategic Initiatives Affected

Foreign direct investment and export activity go directly toward ACA's mission to attract and expand business in Arizona.

Performance Measures that will be used to evaluate the outcome

Increased foreign direct investment and export activity from Europe would be the expected metrics from the Germany office.

FUNDING ISSUE – 3002 Arizona Coronavirus Relief Fund

Arizona Coronavirus relief fund will be resolved by FY2022 with hopes of a resolution to the economic impact on our community.

FUNDING ISSUE – 1006 RURAL BROADBAND

The appropriation from FY20 is estimated to be wholly expended in FY22.

FUNDING ISSUE – 1025 STATE WORKFORCE PROGRAMS

Currently the Arizona Commerce Authority (ACA) performs workforce initiatives on a reimbursement basis. The fund balances for these ISA's will always be negative since the funds are requested after expenditures are recognized. There are no known new projects for FY22-FY23.

3010 – Non-Federal Grant Fund

The Non-Federal Grant Fund was established to account for awards that are not state or federally funded. The award in FY21 was partially distributed. There are no known new grants scheduled for FY22-FY23.

FUNDING ISSUE – 1016 Blockchain Wearables

The appropriation from FY22 is estimated to be wholly expended in FY22.

2548 Arizona Competes Fund – Increase Grant Activity Explanation

The Arizona Commerce Authority expects grant activity to increase in FY23 as more milestones are hit on outstanding grants.

Description: Through the Public Works program, EDA provides catalytic investments to help distressed communities build, design, or engineer critical infrastructure and facilities that will help implement regional development strategies and advance bottom-up economic development goals to promote regional prosperity. The Public Works program provides resources to meet the construction and/or infrastructure design needs of communities to enable them to become more economically competitive. Prior examples of investments EDA has supported through the Public Works program include projects supporting water and sewer system improvements, industrial parks, high-tech shipping and logistics facilities, workforce training facilities, business incubators and accelerators, brownfield redevelopment, technology-based facilities, wet labs, multi-tenant manufacturing facilities, science and research parks, and telecommunications infrastructure and development facilities. As noted above, investments made through the Public Works program must be aligned with a current CEDS or equivalent EDA-accepted regional economic development strategy and clearly lead to the creation or retention of long-term high-quality jobs. For example, under this program, EDA may provide funding to a consortium of eligible recipients to support the construction of a technology center that provides laboratory, office, and manufacturing space that leads to the creation of advanced manufacturing jobs. As another example, EDA may provide funding to a county government to support regional job creation in targeted cluster industries and expand those industries' ability to export goods.

Description: Through the Public Works program, EDA provides catalytic investments to help distressed communities build, design, or engineer critical infrastructure and facilities that will help implement regional development strategies and advance bottom-up economic development goals to promote regional prosperity. The Public Works program provides resources to meet the construction and/or infrastructure design needs of communities to enable them to become more economically competitive. Prior examples of investments EDA has supported through the Public Works program include projects supporting water and sewer system improvements, industrial parks, high-tech shipping and logistics facilities, workforce training facilities, business incubators and accelerators, brownfield redevelopment, technology-based facilities, wet labs, multi-tenant manufacturing facilities, science and research parks, and telecommunications infrastructure and development facilities. As noted above, investments made through the Public Works program must be aligned with a current CEDS or equivalent EDA-accepted regional economic development strategy and clearly lead to the creation or retention of long-term high-quality jobs. For example, under this program, EDA may provide funding to a consortium of eligible recipients to support the construction of a technology center that provides laboratory, office, and manufacturing space that leads to the creation of advanced manufacturing jobs. As another example, EDA may provide funding to a county government to support regional job creation in targeted cluster industries and expand those industries' ability to export goods.
