Top 5 IT Problems Companies Face Today and How to Solve Them

Tuesday, October 17, 2023

Are you a business owner with concerns about your ability to monitor the IT at your company? Have you considered upgrading or outsourcing your current IT support to a Professionally Managed Service, but not sure where to start? If so, this is a workshop you should attend.

A Managed Service Provider gives business owners and overwhelmed internal IT staff affordable server and computer support, remote monitoring of critical network components like servers and firewalls, data backup and disaster recovery, network security, custom software solutions, and technology evaluation and planning. This gives owners a chance to focus on running their business instead of running in circles.

This discussion will focus on the benefits of engaging with a vetted full-service IT management company.

Areas and Benefits to be covered:
* Security
* Managed and Professional Services
* Cloud Optimization
* Lifecycle
* Communication and Collaboration

Who Should attend:
Business owners, IT Personnel, Security Officers, Managers, Accountants, Operations Leaders

EVENT TIME
8:30 - 10:30

$20.00 Per Person

includes coffee and snacks
