A Shared Vision for Innovation

Arizona has become the premier state for advanced manufacturing and high-tech industries than anywhere in the United States. This reputation was further strengthened by LG Energy Solution's selection of Arizona as the home of its first ever cylindrical-type battery facility in North America.

Innovation is central to both Arizona and the Republic of Korea's vision for long-term business prosperity, serving as a shared foundation for continued partnership. With **exports totaling \$509 million and imports totaling \$1 billion in 2024**, Arizona and the Republic of Korea's growing trade relationship represents a mutual focus on advancing cross-border economic and commercial ties.

\$509M EXPORTS

FROM ARIZONA TO REPUBLIC OF KOREA

3.1% INCREASE FROM 2019-2024

\$1B IMPORTS

FROM REPUBLIC OF KOREA TO ARIZONA

311.5% INCREASE FROM 2019-2024

\$5.5 BILLION

CAPITAL INVESTMENT

“With this historic investment from LGES, Arizona has become the battery manufacturing capital of the country. These Arizona-made batteries will power green, sustainable technologies around the world, cementing Arizona's reputation as an innovation hub for renewable energy. We're grateful to LGES for their legacy investment and for committing to making thousands of good-paying jobs for Arizonans.

— Arizona Governor Katie Hobbs
